

SECURITY CHIMNEYS SECURE TEMP. ASHT+ 1" INSULATED CHIMNEY FOR WOOD STOVE APPLICATIONS

The ASHT+, with its double-wall all-stainless-steel chimney and exclusive Secure Plus insulation, minimizes heat loss through the chimney walls, and can withstand the intense heat.

Twist-Lock stainless steel coupler system with 1-inch overlap

- No screws or other attachments required
- Fast and easy installation with one-eighth of a turn

Stainless steel inner lining

- Thin inner lining for immediate heating
- Outstanding corrosion resistance

One inch of exclusive Secura Plus insulation

- Increases appliance performance
- Minimum 2-inch safety clearance to combustible materials in all diameters

Fast venting of combustion products

- Delivers a stable and powerful draft

Lightweight – 6-inch diameter, 5.2 lb. per linear foot

- Delivers a more user-friendly design
